**FLORIST SOCIETY IS
HOLDING CONVENTION**

Cincinnati, Ohio, Aug. 17.—The so-
ciety of American Florists and Horti-
culturalists, organized in Cincinnati
twenty-five years ago, and holding a
national charter granted it by Presi-
dent McKinley, began its twenty-fifth
annual session here today. Delegates
are here from all parts of the United
States.

**SLAYER OF DR. WYLLIE
CALMLY MEETS DEATH.**

London, Aug. 17.—Madariel
Dhinnaghi, the Indian student
who on the night of July 1, at
the conclusion of a public gather-
ing at the Imperial Institute, shot
and killed Lieut. Colonel
Sir William Hutt Curzon,
Wyllie and Dr. Cawell Lalacca,
was hanged at Pentonville prison
on at 9 o'clock this morning.
Dhinnaghi showed no signs of
fear. He declined to partake
of breakfast and walked to the
scaffold calmly.

PRESIDENT TAFT WILL MAKE THE TRIP IN STYLE

Details of Trip From Denver All Ar-
ranged With Much Care.

Salt Lake, Aug. 17.—The visit of
President William H. Taft and his party
to Utah will be an important event in
western railroad circles and every
facility and convenience of the rail-
roads will be placed at the disposal of
the president to make his trip safe,
pleasant and comfortable.

It was at the special request of the
President that his itinerary was so ar-
ranged that he might leave Denver at
a time when he could pass through the
Royal Gorge and also through the prin-
cipal cities of central Colorado by day-
light.

In conducting the President's train
through the gorge the Denver & Rio
Grande will provide a special pilot
train, which will run at all times about
ten minutes ahead of the official train.
Arrangements for the train will be
made by the operating department of
the railroad at Denver and a special in-
spection of the entire line will be
made just before the executive's train
starts from Denver to Salt Lake.

The pilot train will consist of an en-
gine, baggage car, sleeper and observa-
tion car, and, in addition to a repre-
sentative of each branch of the oper-
ating department on the pilot train it
will probably carry most of the
press representatives who are accom-
panying the President on his trip.

The President's train will make
brief stops at the principal cities and
towns where "rear platform recep-
tions" and speeches will be in order.
In these events, John Hays Hammond,
who is immensely popular throughout
the west, will take no small part.

Bodyguard Plans.
"Every means of protection at our
command will be thrown about Presi-
dent Taft during his stay in Salt
Lake," said S. M. Barlow, chief of po-
lice, yesterday. "The city council will
be asked to authorize the appointment
of a special squad of officers to be
used as a bodyguard to the Presi-
dent and his party. The crowd in the
city he will be accompanied by a
sufficient number of police officers to
insure safety against every possible
emergency."

Although not prepared to say just
what methods he will undertake to
guard the chief executive, Chief Bar-
low declares that nothing will be over-
looked. A squad of police will meet
the special presidential train and will
form a cordon about the carriage in
which Taft will be taken up town.
These will be extra precautions to
those regularly maintained by the sec-
ret service men who will accompany
the President on his western tour.

As the distinguished visitor drives
about the streets of the city the police
will accompany him, some mounted
and some on foot. The crowd will
be watched continually for suspicious
characters.

FINAL RACE OF THE LIPTON CUP SERIES TO BE A DUEL

Chicago, Aug. 17.—With two yachts,
the Spray and the I. A. C. tied for
first place, and far in the lead of the
other contestants, local yachtsmen
today regarded the final race of the
Lipton cup series as a duel between
the leaders. The course for the final
race today is rectangular, three miles
to the leg, and is to be sailed once
around.

In the first race, the Spray, the
Chicago Yacht club boat, was victori-
ous and the I. A. C. second. In the
second race the I. A. C. representing
the Illinois Athletic club, was the win-
ner, with the Spray second.

FINDS HER HUSBAND DEAD

MRS. THOMAS SHIPLEY HAS A SAD
EXPERIENCE.

Awakens to Find That During the
Night Her Husband Had Been
Stricken With Death.

The sudden death of Thomas Shipley
occurred about five o'clock this morn-
ing at the family residence, near 2333
Lincoln avenue. He had not been well
for several months, but was around as
usual yesterday. Last evening, when
he retired, he complained of a pain
about his heart, and when his wife
awakened this morning, she discovered
that he was dead.

Mr. Shipley has been a resident of
Ogden since 1869, and was for many
years in the employ of the Central
Pacific railway. He was born, July 24,
1833, at Percy Main, Northumberland,
England. In 1860, he joined the
Church of Jesus Christ of Latter-Day
Saints and always has been a faithful
member. He is survived by his wife,
one son and five grand-children.

Funeral services will be held at the
Third Ward meeting house, at 2
o'clock Thursday afternoon. The body
will lie in state at the home, between
the hours of 10 and 1 on Thursday.
Burial will be in the City cemetery.

Cheap round trip rates. Ask agents
for particulars.

UNION PACIFIC CONTROL OF NEW YORK CENTRAL

While Harriman officials are dis-
inclined to discuss the matter for pub-
lication, and emphatically refuse to
be quoted on the subject, it is gen-
erally rumored around about local
railroad headquarters that the Union
Pacific company has secured control
of the New York Central lines and
in the near future will announce a
complete reorganization of the Harri-
man system that will extend from the
Atlantic to the Pacific coast and em-
brace the New York Central, Illinois
Central, Union Pacific and Southern
Pacific roads. It is assumed that
through passenger service will then
be possible between New York City
and San Francisco and that the pres-
ent time schedule between the two
cities will be materially reduced.

With through passenger service of
this character once established, it
would give the Harriman system al-
most a monopoly of continental travel,
and this would doubtless be quick-
ly followed by a similar condition
covering freight traffic.

An arrangement of this character
would in no sense prove injurious to
Ogden or detract from its future as
the great railroad center of the inter-
mountain region. On the contrary it
would increase railroad traffic to and
through the city many fold and re-
sult in Ogden holding its prestige as the
most important railroad city between
Omaha and San Francisco.

IMPEACHMENT TRIAL OF J. H. SCHIVELY BEGUN

Olympia, Wash., Aug. 17.—The im-
peachment trial of J. H. Schively, state
insurance commissioner, opened
yesterday, the state withdrawing thir-
teen of the twenty-six indictments,
and the defense its demurrer. Miss
Ferguson, bookkeeper in the of-
fice of the insurance commissioner,
and J. S. Lichly were the first called.
Miss Ferguson testified that she had
entered the statutory fee of \$35 on the
books for the examination of the Cap-
itol Insurance company of Boston. The
deposition of George Graham, Jr., an
officer of the company, was read to
show that \$235 had been paid. J. S.
Lichly, treasurer of a defunct insur-
ance company in Spokane, testified
that his company had paid \$100 to
Schively on one occasion, and that
\$300 had been paid on another when
Schively and E. E. Liggett, insurance
commissioner of Idaho, made an ex-
amination.

SAYS THEORY OF EVOLUTION IS AS OLD AS THOUGHT

Chautauque, N. Y., Aug. 17.—That
the theory of evolution is as old as
human thought itself and that Darwin
was only one of many who have at-
tempted an explanation of it, was the
statement of Professor J. M. Coulter
of the University of Chicago, in the
first of a series of lectures.

"The scientific world has gotten be-
yond Darwin today," said Professor
Coulter, "and is engaged in experimen-
tal work which is showing weak spots
in all the theories. We care nothing
for these theories. Every one of them
may go and evolution will still remain.
On account of the keen attacks of bi-
ologists, and they are the only ones
for whose attacks we care, all of them
have been found weak in spots, but
the simple fact that we can't explain
a thing, does not destroy it."

USE OF GAS AS MOTIVE POWER ON MEN-OF-WAR

Washington, August 17.—Gas as a
motive power on men-of-war is a pos-
sibility of the future in the opinion of
naval experts here. It would mean a
material reduction in coal consumption
and would avoid the necessity of stop-
ping so often to replenish the coal
bunkers.

Admiral Cane, who commanded the
torpedo flotilla on its way from the
Atlantic coast to San Francisco, and
who is chief of the bureau of steam
engineering, is gathering information
on the subject, and recently sent Com-
mander William W. White to visit
several large manufacturing plants in
the west.

WORK OF CHINESE SMUGGLERS CHECKED

Detroit, Mich., Aug. 17.—A band of
Chinese smugglers, using Fighting Is-
land, a deserted bit of land ten miles
down the river, inside the Canadian
border, as the base of their operations,
is believed to have been broken up
by the capture of three young Detroit
men and two Chinese in Lansing.

It is the belief of the authorities
that the gang, checkmated at every
turn hit upon the deserted island as
headquarters and that Chinese to be
smuggled were taken in hand upon
their arrival in Windsor and secreted
on the island until the opportunity
offered to take them across the line
in a launch, where they were to be
taken away in automobiles.

O. S. L. EXCURSION TO SALT LAKE CITY EVERY SUNDAY, \$1.00 ROUND TRIP. Eight daily trains to and from the Capital.

NEW LEADER FOR TABERNACLE CHOIR

There is to be a change in the lead-
ership of the Salt Lake Tabernacle
choir. Prof. A. C. Lund of the Brig-
ham Young university is to succeed
Prof. Evan Stephens, who has been
for many years the leader of the
choir. Speaking of the change, the
Provo Post has this to say:

"Word has reached here from Salt
Lake City that Prof. A. C. Lund of
the B. Y. U. will be engaged to take
charge of the great Tabernacle con-
cert choir at Salt Lake just as soon
as he returns from his trip abroad,
and upon the strength of Lund going
to Salt Lake to take charge of the
famous organization, a great many
young singers have gotten together
and are rapidly drawing up plans for
the organization of a great male
chorus upon the arrival of their new
leader. It has been an understood
fact for a long time that Prof. Step-
hens has desired to be released from
the choir, as he feels that he would
prefer to devote his time in private
for the rest of his life, and it is a
known fact that many times Prof.
Lund has been offered this very im-
portant church position, but has re-
fused at each time on account of his
loyalty to Provo and his desire to re-
main with the B. Y. U.

Throughout the entire Western coun-
try as a chorister and teacher of the
highest type and has been considered
one of the very foremost leaders in
music for many years past. The
operas he has put on each spring have
done much to build up his great rep-
utation and no matter where he took
his singers, great audiences greeted
him. The Salt Lake papers at dif-
ferent times have stated that the B.
Y. U. amateurs are ahead of any
amateur productions ever gotten up
in this state and they have attributed
these successes to Lund's leadership."

MONEY TO SPARE, SAYS STERRETT

Estimated Expenditure for Encamp-
ment Will Be About \$61,000.

Salt Lake, Aug. 17.—At a meeting
of the executive committee of the G.
A. R. encampment at the Commer-
cial club rooms yesterday afternoon
at 12:30, the reports of various com-
mittees and sundry encampment bills
came up for consideration. Accord-
ing to Colonel Frank M. Sterrett, ex-
ecutive director of the G. A. R., there
will be money sufficient to meet all
bills, with a little to spare. The ex-
penditures will be approximately \$61,-
000 and the receipts \$2,000.

Colonel Sterrett stated that it was
difficult to arrive at exact figures this
early in the week. The work of au-
diting the many bills and attending
to the many matters incident to the
closing of the accounts is a big task,
and exact figures will not be obtain-
able until the end of the week, at
which time it is thought that the com-
mittee will have completed its work.

Most of the bills in large amount
have been presented to the finance
committee. There are, however, a
number of bills, especially in small
amounts, still outstanding. With
those which have already been pre-
sented, together with the bills out-
standing, it is thought the expendi-
tures will not be in excess of \$61,000.

The books of the G. A. R. show a
number of bills payable, among which
is an item of grand stand rent,
amounting probably to about \$50.

Colonel Sterrett stated yesterday
that when all accounts had been au-
dited carefully and the committee had
made its final report, it would be
found that everything considered,
matters had been handled in a credit-
able manner.

"It is no easy matter to handle a
big encampment," said he, "and it is
easier to find fault with the way the
work is done than to do the work.
This encampment has been handled
with less friction than any other at
which I have officiated, and I am con-
vinced everything will be found in
first class shape."

LOSS OF \$1,000,000 BY FIRE IN GLASGOW.

Glasgow, Aug. 17.—Fire broke
out at an early hour this morn-
ing in a retail business quar-
ter and several squares of
buildings were consumed. The
damage is estimated at \$1,250,-
000.

By noon the firemen had the
flames completely under con-
trol. There were no fatalities.
The stocks destroyed consist-
ed mostly of dry goods.

WANT ADS BRING BIG RESULTS

UNION HAT-MAKERS GO BACK TO WORK

New York, Aug. 17.—An agreement
for the settlement of the strike which
has kept between 15,000 and 25,000
union hat makers out of employment
for seven months has been reached
between the executive council of the
United Hatters of North America and
representatives of the Hat Manufac-
turers' association.

The agreement, which was brought
about through the intercession of Gov-
ernor Fort of New Jersey, has been
ratified by both sides, and now only
the formal signing of the articles is
awaited by the union before resuming
work.

Both sides made concessions. The
union label which was a point of ser-
ious contention, will be restored in all
factories under the agreement. Non-
union workmen who have been filling
strikers' places will be discharged and
the union employees who went on
strike will be re-employed at the old
scale. An agreement will be signed,
effective for three years, whereby dis-
putes will be submitted to arbitration.
Union employees who refused to join
the strike in January, will be allowed
to rejoin the union and only union
men will be employed during the life
of the three-year agreement. Gov-
ernor Fort will be the third party in
the arbitration board, which will settle
any disputes that may arise.

NOTICE TO CONTRACTORS

Bids for furnishing the material and
erecting a four bent pile bridge, will
be received at the office of the Board of
County Commissioners, until 4 p. m.
of August 18, 1909. Plans and speci-
fications at the office of the County
Surveyor.

By order of the Board of County
Commissioners.

SAMUEL G. DYE, Clerk.

STRANGE DISEASE

Dr. John Sundwall, bacteriologist of
the University of Utah, is in pursuit
of an unknown germ to which is at-
tributed forty cases of illness and
numerous deaths in Kane county,
Utah. Because of its prevalence
among persons who herd and handle
goats the disease has been given the
name of "goat fever." Physicians who
have attended the sufferers have been
unable to identify it with any record-
ed malady. An extremely high tem-
perature is one of the symptoms. Dr.
Sundwall spent several days in Kane
county and made an exhaustive in-
vestigation of the cases now under treat-
ment. He brought back hair, ticks
and other appendages of the goats and
is subjecting them to microscopic and
other tests. When these are finished
he will report his findings to the
state board of health.

BOY REACHES OGDEN ON HIS TOUR AROUND UNITED STATES

Harry Garreby, a 19-year old boy,
who, with a companion, set out from
Boston, August 1, 1908, to walk to
San Francisco and back, arrived in
Ogden yesterday on his return trip.
Young Garreby and his companion left
Boston with the intention of walking
around the United States. They gave

HARRY GARREBY

high diving exhibitions and did some
singing to defray expenses.

After Garreby's companion got to
the coast he felt as though he had had
enough of it and left the completion
of the journey to Garreby, who is still
on the way.

Garreby came by way of New Or-
leans, Arizona and California. As soon
as arrangements can be made he will
give a performance here.

WIDOW 81 YEARS OLD TO WED MAN WHO IS BUT 51

Pittsburg, Pa., Aug. 17.—Mrs. Eva-
line Hall, a widow, aged 81 years, and
Robert B. Wright, aged 51 years, both
of Turtle Creek, Pa., yesterday took
out a marriage license in the Alle-
gheny county license office. They will
wed tomorrow. John Hall, 62 years
old, a son of the woman by a former
husband, was present at the marriage
license office and declared his mother
to be of "legal age."

COMMISSIONERS FILL VACANCIES

The county commissioners met yester-
day and appointed A. F. Larson to the
deputyship left vacant by the resig-
nation of Frank J. Henderson.

Thomas H. McEntyre and H. H.
Kinsley sent a letter to the commis-
sioners protesting against the closing
of a culvert in the Harrieville district,
which was flooding the grounds in the
neighborhood and doing some damage
to the orchards nearby. Commissioner
Bybee was instructed to look into
the matter.

It was reported that the work of
driving artesian wells in North Ogden
was progressing rapidly and that a
flow of 130 gallons a minute had been
struck in one of the wells.

Commissioner Moore reported that
the construction and repairing of the
road from the residence of Mr. To-
pence to Huntsville would be pushed.
The replastering and wallpapering
of the recorder's office in the court-
house was reported as being thorough
and satisfactory.

A carload of coal was bought for
the county infirmary. Mrs. Emily
Windell was appointed as caretaker
to succeed Mrs. Purdy, who has re-
signed.

Road Commissioner John C. Childs
recommended that the 40-foot bridge
which the Wheelwright Construction
company is putting in the Warren dis-
trict be extended thirteen feet, so
that the base will rest on solid ground.
The matter was left to his own dis-
cretion.

County Physician Paddock notified
the commissioners that there was a
case of tuberculosis at the European
hotel and he wished to be advised as
to what disposition should be made of
the patient.

POLICE DEPARTMENT HAS A LITTLE EXCITEMENT

The police department received a
call sent from way out over the rail-
road tracks, saying that a man out
there had come home drunk and was
giving his wife a terrible beating.
Patrolman Bob Burke made a quick
run to the scene of battle and found
the man with his shirt torn off his
back and his wife with her arms
tightly clasped around his neck plead-
ing with him not to leave her.

The man had threatened to jump
into the river and in her attempts to
hold him from doing so his wife had
torn the shirt off his back.

The patrolman had hardly reached
the station before another call was
received, carrying the information
that the woman had taken poison and
a doctor was needed immediately. The
patrol wagon was called and a full
squad of policemen were sent to the
place. When they arrived there they
found the woman slinging and busily
wiping the supper dishes. She knew
nothing about the police being called
and was very much surprised when
they made their second appearance.
She said that after the first visit of
the police she had fainted and it was
thought that some over-zealous person
took the opportunity to make a stir.
